RUSSIA INCENSED AT UNITED STATES

Three Russian War-Ships Blown up While Attempting to Storm Japanese Port.

ALL OF RUSSIA PLACED ON WAR FOOTING

Further International Complications are Feared--Russia Seized British Steam Collier--Japanese Forces Repulsed on Land.

(BULLETIN SPECIAL WAR SERVICE.)

RUSSIAN FLEET BLOCKADED.

London, February 13th.—A Despatch from Rome says that the Russian fleet is blockaded by the Japanese at Vladivostok and it would be impossible for the bombardment of Hakodate, Japan, to have occurred as reported.

LOCATION OF BALTIC FLEET.

Copenhagen, February 13th.—The Czar's Baltic fleet which started for the far east is still at Kronstadt. An ice breaker is trying to keep the channel open.

CAN TURKEY DECIDE?

Constantinople, February 13th.—The Russian Ambassador had an audience with the Sultan to secure permission to send the Black Sea fleet through the Dardanelles.

SEOUL PROBABLY CAPTURED.

London, February 13th.—Paveloff, the Russian Minister at Seoul, has left the Korean capital. No reason for his departure is given. The Japanese have probably occupied the city in force by this time, rendering the presence of Russia's representative there of no further service to the Czar's government.

BRITISH COLLIER SEIZED.

London, February 13th.—The owners of the British steam collier Faxton Hall, have been advised that the vessel has been detained by the Russians at Port Arthur. Russian soldiers have been placed on board the vessel and her captain and crew have been sent to Chefoo. It is reported that several other neutral vessels are detained at Port Arthur.

A NEW EXPLOSIVE.

London, February 13th.—The Japanese will bring into use a new explosive named after its inventor, Shimocoe. It is believed to be the most powerful in the world and will be used only in large shells.

ORDERED ON.

Port Said, February 13th.—The Austrian collier Java, chartered by Russia to proceed to Port Arthur with coal, has been ordered by the Egyptian Minister of Foreign Affairs to leave here immediately.

BARLEY SHIPMENTS STOPPED.

Vancouver, February 13th.—Five hundred tons of barley for shipment to Japan by the Empress of China will not be loaded, being contraband of war. The men who were stowing it in the hold stopped yesterday morning. It is stated that it is not known if shipments of flour can be sent forward, though such lots are still coming in from Manitoba millers consigned to Japanese points.

RUSSIA ON WAR FOOTING

St. Petersburg, February 13th.—There is reason to believe the Foreign Ministry has decided to recall Count Cassini, the Russian Ambassador to the United States. The Russian government is highly disappointed because Cassini did not succeed in establishing closer relations with the United States before hostilities began. An intense anti-American feeling prevails in society here. Newspapers and all classes are coupling the United States with England as being Russia's most inveterate foes.

RUSSIA'S ANTI-AMERICANISM

St. Petersburg, February 14th.—Masters are assuming a very serious aspect, as will be shown by the following items of news, which have been received from an authoritative source: On Thursday last, owing to news of special seriousness just received, a council of war was called which lasted from two till four o'clock. In view of possible eventualities it was resolved to place the whole country upon a war footing so as to be able in case of need to meet any possible attack from three sides. All the guards regiments with the exception of those forming the first division have been ordered to hold themselves in readiness for active service. Parties of these have already left for the far east and others will follow from day to day. The artillery of the guards has also been served with orders to move to the front. Very grave news has been received as to coming international complications. The promotion of the seniors in the artillery school for cadets is expected immediately.

Nagasaki, February 14th.—The second stage of war has now begun and the army's operations and transportation of troops and so forth are in course of being carried out personally. I have no doubt that even if Russia could put her full strength into the field she would be unable to hold Liao Tung peninsula against Japan. The fact that the latter's fleet is helping her troops makes her position practically impregnable and Port Arthur must fall in the course of time even without assault.

A Russian cruiser was blown up at Nagasaki on Friday.

A telegram received here states that three out of four Russian cruisers were blown up by torpedoes while passing through the Tuggera Straits, off Hakaido. It is reported that the forts fired ineffectually upon the enemy in the straits. (These despatches have been delayed in transmission, probably because of the severity of the Japanese censorship.)

Chee Foo, February 13th.—(Delayed in transmission.) The Japs who attempted to land 3,500 troops at Aidsawa, near Port Arthur, last Tuesday, were repulsed and almost annihilated. Two Japanese cruisers were sunk at the same time and one damaged at Port Arthur. These reports come from Russian sources.

Chee Foo, February 13th.—It is reported that 1200 Japanese troops were landed at Dove Bay last Wednesday morning and that they were met by the Russians who engaged them in a hand to hand fight. The reports say the Japanese were driven back. It is also reported that Japanese troops have been landed forty miles further west.

Nagasaki, February 15.—Six Norwegian steamers chartered by a Russian naval contractor have been captured. The vessels are the Lena, Adiel Santa, Serast, Argo and Hernis. They carried coal cargoes captured. The vessels arrived here today under convoy of a cruiser. It is reported that 1,800 Japanese soldiers The Hermin arrived here today under convoy of a cruiser. It is reported that 1,800 Japanese soldiers have been killed possibly by the sinking of a transport. Disturbances are reported in Seoul.

New York, February 15.—The World's Tokyo correspondent cables official confirmation is given today of report that three of four Russian warships from Vladivostok which entered Tuggera Straits to attack Hakodate were blown up by mines last night while attempting to pass the straits.

Chee Foo, February 15.—A reliable report says that three Russian torpedo boats have been sunk by guns from the forts. They were mistaken for Japanese vessels.

Chee Foo, February 15, 8.05.—The Russians are laying mines at the entrance to Dalny, and all neutral merchantships, ten in number, left the port escorted by torpedo boats. The Japanese attack is expected at any moment.

FIRE AT ROSS BROS.

Ross Bros. wholesale and retail establishment had a narrow escape from fire this morning. About nine o'clock, when the fire in the retail hardware department was put on, the ceiling near the stove pipe caught fire in some almost inextinguishable manner, and in a very few minutes the store was filled with smoke. The alarm was rung in, and the brigade rapidly responded. However their services were not needed, as a couple of pails of water soon put out the blaze.

THE NATIONAL TRUST COMPANY.

The days of the personal executor or executors are rapidly passing. Their particular functions are now being assumed by trust companies, which from every standpoint present many advantages over the older, but essentially necessary in its day, system of entrusting to individuals the administration of legacies and estates. Executors are human and at the critical period of their duties, as such, may find themselves unable to give them attention or may be victims of one of the thousand little human foibles to which they are subject. Such a danger is entirely eliminated when an executorship is placed in the hands of a trust company. Legally an executor selected by a testator is amongst those held by him in the highest esteem, both as to judgment and integrity. But human nature is exposed to great changes, either physical or moral. The trust company provides immunity from those. The Canadian public are rapidly realizing the advantage of institutions making a specialty of trust business. No better evidence of this can be advanced than to cite the growth of a local corporation—The National Trust Company.

Although this company has its head office in Toronto, the Western branch is essentially an institution of local growth. Only three years ago it amalgamated with the National Trust Company, but previous to that time it was known as the Manitoba Trust Co., which was preceded by the Permanent Mortgage and Trust Company. Mr. Arthur Stewart was manager of this company, and has held the same position through the various stages of development, until the present time. He has thus become very intimately acquainted with a class of business that is of comparatively recent growth. It is an evolutionary development of a better system of dealing with testamentary responsibilities.

The charter of the National Trust Company empowers it to act as executor, trustee, guardian, administrator or general agent. Its operations as such are extensive as will be seen from the report of the recent annual meeting published elsewhere in this issue. On December 31st last the capital and trust under administration by the company amounted to \$6,773,422.00. The capital liability amounts to \$1,000,000.00 and on this a dividend of six per cent. was paid. The net profits for the year, after deducting all expenses, was \$29,308.94, after providing for dividends a substantial amount has been added to the rest which now amounts to \$280,000.00 and \$100,000 has been written off office premises.

The assets of the company are such as can be readily converted into cash, stock and other securities held by the company, amounting to \$448,514.13, are, we are told by President J. W. Flavell, in his address at the annual meeting, put down at considerably less than present market quotations. Such being the case the National Trust Company is in an enviable position with regard to such holdings as it has. The past year has been disastrous to several trust companies in the United States, which could not withstand the severe reaction in valuation.

The Canadian trust companies, however, are subject to more rigid charter provisions than those of the United States and the result is that the business of the trust companies is of a character that should not be excluded from public scrutiny. The full statement of the National Trust Company and the instructive speech of President Flavell cannot but inspire confidence.

DEATH OF MISS AGNES McCALLUM.

The news of the death of Miss Agnes McCallum, on Saturday evening at the General Hospital came as a shock to her numerous friends and acquaintances in Edmonton. She had been working in H. W. B. Douglas's bookstore for upwards of six months, and until the last couple of weeks was seemingly in the best of health and strength. She was taken with erysipelas and pleurisy, and passed away on Saturday evening after being a few days in the hospital. Her death has cast a gloom over her friends in Edmonton. The funeral takes place tomorrow, Tuesday morning at ten o'clock from the General Hospital to the Roman Catholic Church.

National Trust Company, Ltd.

Annual Meeting of Shareholders

The Sixth Annual General Meeting of the Shareholders of the NATIONAL TRUST COMPANY, LIMITED, was held in the Company's Board Room 30 King Street East Toronto, on Wednesday, 27th day of January, 1904.

Among those present were:—Hon. Mr. Justice Britton, Messrs J. W. Flavelle, C. D. Massey, Alex. Bruce, K. C., Elias Rogers, A. E. Kemp, M.P., F. W. Gates, H. H. Fudge, William Davies, E. H. Bickford, Andrew Gunn, George W. Gouinlock, S. R. Parsons, B. E. Bull, M. A. Thomas, David Smith, E. R. Wood, E. W. Cox and Robert Kilgour.

The President, Mr. J. W. Flavelle, having taken the chair, the General Manager, Mr. W. T. White, was appointed Secretary of the meeting.

After reading the notice convening the meeting, the Secretary read the Sixth Annual Report, and the accompanying Financial Statement as follows:—

The Directors have pleasure in submitting herewith their Sixth Annual Report, showing Statement of the Assets and Liabilities of the Company as at 31st December, 1903, together with the Profit and Loss Account for the year ending on that date.

The Net Profit after providing for all costs of Management, Salaries, Advertising, Auditor's Fees, and other expenses, amount to \$89,359.94. The sum of \$12,443.18 brought forward from 1902 makes the total at credit of Profit and Loss Account \$101,803.12, which has been appropriated as follows:—

(a) To pay four quarterly dividends at the rate of six per cent. per annum, amounting to \$60,000.00.

(b) To increase Reserve Fund \$20,000.00.

(c) To write off Office Premises \$10,000.00.

(d) To carry forward in Profit and Loss Account \$11,803.12.

The Reserve Fund now stands at \$320,000.00.

Respectfully submitted,
J. W. FLAVELLE, President.

W. T. WHITE, General Manager.

The President in moving the adoption of the report said:

The Statement presented by your Directors shows that the Company continues to make steady and satisfactory progress. The profits for 1903 amounted to \$89,359.94, an increase of \$6,133.80 over the preceding year, and being about 9 per cent. upon the paid-up capital stock of the Company. As you are aware, the source of the Company's earnings are twofold; firstly, the income derived from the investment of its Capital and Reserve Funds, and, secondly, commissions and remuneration for services rendered as Trustee, Executor, administrator, Agent or other capacity within the scope of the Company's Charter, and in connection with the investment of monies entrusted to it by private individuals and Corporations. It is gratifying to be able to report that the past year has witnessed a large increase in all these departments of the Company's business, thus indicating unmistakably the continued and increasing good will and confidence of the public concerning the Company, like all other institutions, must rely for permanent success upon which this Company, like all other institutions, must rely for permanent success. Upon which this Company, like all other institutions, must rely for permanent success. Upon which this Company, like all other institutions, must rely for permanent success.

Following the policy of building up a strong Reserve, which was determined upon at the beginning of the year, your Directors have added out of the earnings of the year the sum of \$20,000 to the fund which now stands at \$320,000. The sum of \$11,803.12 carried forward in the Profit and Loss Account also represents undistributed earnings, so that, during the year, the Reserve Fund has increased by \$31,803.12. The sum of \$11,803.12 carried forward in the Profit and Loss Account also represents undistributed earnings, so that, during the year, the Reserve Fund has increased by \$31,803.12. The sum of \$11,803.12 carried forward in the Profit and Loss Account also represents undistributed earnings, so that, during the year, the Reserve Fund has increased by \$31,803.12.

You will observe that the Company's Capital Assets comprise Real Estate, Mortgage Loans upon Bonds and Stocks, Bonds, and Stocks owned by the Company, and cash to our credit, with our bankers. The first item which I have mentioned, viz., Real Estate, shows an increase over the figures of last year by the addition of our office premises in the City of Montreal, which were acquired by the Company during the year. The purchase of this valuable and advantageously situated property secures the Company permanent quarters in Montreal, where its business has been carried on with success and the value of the Company's three buildings, first opened an office there. Your Directors feel that the Company's three buildings, situated in St. James street, Montreal, King street, Toronto, and Main street, Winnipeg, are desirable investments and stand quite within their value at their purchase prices upon the books of the Company, and that they will gradually appreciate with the growth of the cities mentioned. Following the policy of building up a strong Reserve, which was determined upon at the beginning of the year, your Directors have added out of the earnings of the year the sum of \$20,000 to the fund which now stands at \$320,000. The sum of \$11,803.12 carried forward in the Profit and Loss Account also represents undistributed earnings, so that, during the year, the Reserve Fund has increased by \$31,803.12.

The several officers of the Company have all contributed to what will doubtless be deemed by the shareholders the satisfactory result of the year's operations. Your Directors are pleased to make acknowledgment of the valuable services rendered by the Advisory Board at Winnipeg and the Resident Directors of Montreal and to the officers and staff of the Company for the real, fidelity and capacity with which they have discharged their duties to the Company and its clients.

I beg to move, seconded by Mr. E. R. Wood, the adoption of the report. A vote of thanks to the General Manager and staff of the Company was passed, after which the following were elected Directors of the Company for the ensuing year:—

VAN HORNE HELD UP

BY BANDITS IN CUBA

On Saturday, Robbers Made Poor Attempt to Secure Money from Railway Magistrate.

(Bulletin Special Despatch)

Havana, February 15th.—Sir William Van Horne, of the Canadian Pacific Railway, while exploring the railways of Cuba, was the victim of a hold up in Santiago province. According to a report which has reached this city the details of the affair are as follows: It is said that the train which bore Sir William and party of friends and officials of the Cuban railway was stopped by bandits near Santiago. The train crew and passengers stood off the bandits and the train moved off without the robbers getting any booty. The sleeper in which were Sir William and his friends was badly smashed as to windows but otherwise no damage was done.

Rumors have been sent out to tempt the bandits and it is reported that they have been located the men at a short distance from the scene of the hold up.

SPORTS

VICTORY FOR LACOMBE.

The Lacombe hockey team met and defeated the Strathcona team on Saturday evening at the Strathcona rink. On Friday evening Lacombe defeated Strathcona by a score of 7 to 4 and Saturday evening Lacombe defeated Strathcona 6 to 3. Lacombe objected to playing on Strathcona open air rink on account of the severity of the weather and the Strathcona team kindly consented to play. The game on Edmonton ice, each visiting team getting a proportion of the gate receipts.

The game commenced about 8:30 o'clock and was fast and exciting from start to finish. In the first half a great deal of end to end fighting was indulged in but as the game progressed the plucky little fellows from Lacombe gradually drew away from their more bulky opponents and scored goal after goal. A great crowd of people witnessed the match and the majority of them cheered lustily for Lacombe's fast team. Edmonton's rosters were present in full force and cheered the little fellows on to the victory which they so easily achieved.

Strathcona played without Norman May at cover point and their team was no doubt greatly weakened by his absence. During the greater part of the first half the score stood one all, but about a minute before half time Lacombe's whiffwind centre-forward, Jimmie Williams, made a brilliant rush, passed the Strathcona defence and scored. This left the score 2 to 1 in Lacombe's favor.

The second half was very much faster. Strathcona scored twice and Lacombe four times. Watson in goal for Lacombe played a splendid game. Plummerfelt and Chalk especially picked to every Strathcona rush, kicking the puck off their forwards' sticks and then making a rush with it, left it in their Johnston's care, who promptly attended to it and did it well. Jimmie Williams is a small-sized cyclone on skates and but for hard luck would have scored more often than he did. Lance Rainforth played a brilliant game, always in his place and ably assisted the two Williams in their lightning like rushes on the Strathcona net. Bert Williams played an exceedingly fast game. In all fairness to the Strathcona team it must be said that they did not play up to their usual style of fast hockey. They seemed to be perplexed by the exceedingly fast work of the Lacombe aggregation. Just before full time Jimmie Williams kicked and scored the sixth goal thus doubling the score.

Full time was reached by deafening cheering from the large crowd in the rink. Lacombe had won out by a score of 6 to 3. The line-up of the teams was—
